Product Details

Safari V-Spec Snorkel SS98HF now available for Pre-Order, for despatch in November 2022.

The Safari Snorkel is the ultimate protection against water, dust and snow ingress. The Safari Snorkel delivers cool, clean air to your vehicles engine.

Utilising Safari's traditional design concepts and incorporating the very latest in scanning and CAD design software, Safari's V-SPEC Snorkels are ready to perform in the most extreme environments. Fully designed and manufactured in Australia, tested and verified on a custom flow bench to ensure the airflow meets or exceeds the factory inlet design. The Safari Snorkel offers the best air intake protection and performance for today's 4wd vehicles.
